

Our commitment to you:

We locally source our fish, mainly from southern Australian waters and sometimes from New Zealand waters which both are considered a sustainable choice by the federal government. The term "FLAKE" is an official Australian Fish Name Standard, that only applies to two species. Being a smaller species, they reproduce relatively quickly, producing a number of pups. The body that endorses the official Fish Names Standard in Australia, officially made the word FLAKE the sole name for the species of Gummy shark (*Mustelus antarcticus*) and NZ Gummy shark (*Mustelus lenticulatus*). Both species are of the highest standard and that's what you'll get from us.

We only sell Gummy
